

Kacie Warren

Kacie Warren was born and raised in Naperville, Illinois. She started her artistic career while a freshman attending Naperville North High School. Fall semester she enrolled in Ceramics 1 with her sister. They both enjoyed their time spent in ceramics and loved being creative. It was then when she realized she wanted to continue developing her skills in the arts. Every semester she took at least one art class and by the time she graduated, had almost exhausted the art classes offered.

In college Kacie studied K-12 art education so she could share her love of art with others. She continued developing as an artist while focusing on ceramics. She worked hard inside and out of class and for that was honored with artistic achievement awards throughout college. Kacie has now been working with ceramics for over 10 years and has started a small business: enjoy. She dedicated this name to her mom who was her first client and biggest supporter throughout her artistic career. Every piece she makes with her mom in mind and hopes she, and you, will enjoy.
