

Sybil Swanson is a self-taught abstract painter, quilter, wood burner and anything else she may find to be her passion. Her work has been in various juried exhibits including the Hopkins, Minnesota 2019 International Exhibit, Arts in Harmony, for her abstract acrylic fluid art piece called "*Champagne Delight*". Her quilts have been included in the juried Maple Grove Arts Center Fabrication Exhibit.

Ms. Swanson has great fun creating her abstract art and has even more fun teaching acrylic fluid art whenever she can, providing all the necessary paraphernalia while the client provides the customers and the wine. She finds this a very satisfying endeavor, especially when working with the elderly and handicapped as they learn to again "play in the paint" as they did when they were 6.

When she's not painting, teaching, quilting or burning wood, you might find her at her favorite writers' group, trying to put a sentence or two together to satisfy the wonderful, funny and totally serious experienced writers in the group.

You can connect with Sybil through e-mail at stswanson1@yahoo.com and as soon as her granddaughter teaches her how to create it, you'll see her artwork on her website. As a bonus, you'll get the opportunity to purchase said artwork as well.
